CHESS Project Release 1 Cutover Approach

ASX is pleased to advise that the CHESS Project Release 1 Cutover Approach is now available.

The CHESS Release 1 Cutover Approach outlines the approach, governance, and timeline for transitioning to the CHESS Release 1 Clearing Service, including the cutover weekend schedule, dress rehearsal and Go-Live dates.

It is primarily intended for Approved Market Operators (AMOs) and their software providers, who are responsible for executing cutover activities in coordination with ASX.

The document ensures all stakeholders understand their roles, readiness criteria and high level communication protocols, to support a smooth and risk-mitigated Go-Live.
